

THE PROCUREMENT NOTICE in the Official Journal of the European UNION (OJEU) for MRI projects

International Invitation for Prequalification

Title: Wind Farm Project

Project/CONTRACT Name: Wind Farm Gulf of Suez No.1, Project ID: BMZ 2015 65 126

Name of Promoter: New and Renewable Energy Authority (NREA), Egypt

The NREA (hereinafter referred to as “the Borrower”) has received (or applied for) a loan from the European Investment Bank – EIB, **Agence Française de Développement (AFD)**, and/or KfW (hereinafter referred to as “the Financing Institutions”) – towards the cost of the Wind Farm Gulf of Suez no. 1 project. Thus, the financing of this contract is still subject to final negotiations. This International Invitation for Prequalification relates to the turnkey contract for the “Wind Farm Gulf of Suez no. 1”. The applicable procurement rules for this tender process follow Egyptian Law and the “Guidelines for Procurement of Goods, Works and Associated Services in Financial Cooperation with Partner Countries” of KfW.

This contract will include:

- Design, delivery, construction and commissioning of a wind farm with a minimum total capacity of 200 MW with a possible extension to 250 MW including spare parts and consumables for 3 years plus refilling at the end of this three years period.
- Design, delivery and construction of necessary infrastructure at the site such as roads, medium voltage MV electrical cable network, SCADA) including 3 years warranty,
- Design and construction of service buildings
- Warranty and servicing of the wind farm including spare parts and consumables management for a three year period.
- Construction of a 300 MVA substation (22kV/220 kV or 34.5 kV/220 kV) including three year warranty: The interface will be the 220 kV gantries towards the transmission line to be constructed and commissioned by EETC.

This contract is expected to commence in the beginning of 2018 with a construction period of 32 months up to completion plus three year warranty and service period.

The criteria to be used for qualification are “Pass – Fail” with minimum conditions

- Having an IEC Class I WTG in the production programme, at least 2.3 MW capacity, a maximum tip height of 120 m, type certified at the time of Bid Submission (expected for autumn 2017), defined minimum commercial operation experience of this WTG
- Eligibility according to compliance criteria,
- Historical Contractual Non Performance
- Financial Situation
- Experience in the different work lots

Details are defined in the Prequalification Document.

All firms are invited to participate in the tender.
